## Bundy-Wilson and Stafford-Cushing Weddings Solemnized.

Henry A. Stafford of Orleans and Miss Leila H. Cushing were married at the Universalist church yesterday morning just before the closing anthem and benediction of the regular service of the church when Rev. Will C. Harvey stepped down from the pulpit and read the impressive ritual which ratified the union of two young lives. The wedding march was played by Max Bryant, Gerald Bryant and Miss Nora Lee Crowell, musicians from the South who are passing the summer at C. E. Noble's. They had played during the regular church service also. The bride was attended by her sister, Miss Mary G. Cushing, as bridesmaid, and the bridegroom by his friend, Fred Ryan of Springfield, Mass., as best man. The bride wore white crepe de chine and carried a shower bouquet of white roses and white sweet peas. The bridesmaid was dressed in gray and carried pink roses. After the ceremony a wedding breakfast was served at the home of the bride's parents, Mr. and Mrs. Carl D. Cushing, at which a few of the bride's old friends were present, besides the immediate Cushing and Stafford families, the latter consisting of Mr. and Mrs. E. D. Stafford of Orleans, their son, Dwight, and their daughter, Mrs. Ella Wilson of Concord, N. H. The tables were decorated with a profusion of pink and white peonies of remarkable luxuriance, grown in Barnard. The young people took the New England States Limited northbound for Burlington, planning a leisurely trip by water to New York by way of Lake Champlain, Lake George and the Hudson river. Their home will be at Upland, Pa., a suburb of Chester, Pa., where Mr. Stafford has a responsible position. He is a graduate of Tufts college. His bride is a native of Bethel and a graduate of Vassar college. She has done excellent work as director of the local Red Cross.

A very pretty wedding occurred last Saturday evening at the old Episcopal church on the Randolph road when Miss Gladys Wilson, only daughter of Mr. and Mrs. Guy Wilson, was married to Robert E. Bundy, elder son of B. G. Bundy, Rev. W. Benjamin Reynolds performing the ceremony, assisted by Rev. Charles Chase Wilson of Rosindale, Mass., an uncle of the bride. The church was filled with friends of the young people and was illuminated with a large number of candles. The decorations were in green and white, consisting mostly of daisies and evergreen, with smilax at the altar. An orchestra made up of Max Bryant and Gerald Bryant of Durham, N. C., Miss Nora Lee Crowell of Salisbury, N. C., and E. D. Gilson played old pieces while the guests were gathered, the bridal chorus from "Lohengrin" as a processional, and Mendelssohn's wedding march as a recessional. The bride was attended by Miss Helen Brooks as maid of honor and by Miss Britten Somers of Barnet, Miss Pearl Ralph of Andover, Mass., Miss Mabel Taylor of Proctor and Miss Florence Fisher of Burlington as bridesmaids. The bride carried a shower bouquet of white sweet peas and her attendants carried sweet peas and roses. She was given away by her father. The bridegroom was attended by Paul F. Wilson, brother of the bride, as best man and by Albert B. Washburn, John Noble, Austin B. Noble and Robert S. Noble as groomsmen, who also acted as ushers. The newly married couple both were born in Bethel, graduated from Whitecomb high school and from Middlebury college. Both have many friends here and elsewhere who wish them the highest happiness.

## WATERBURY

No doubt of the character of the illness which caused the death of Katherine Dillon existed, the cause being given out at once as infantile paralysis. Miss Dillon's brother, Mark E. Dillon, was taken ill March 9 and died April 27, Miss Katherine caring for him during those weeks of illness. Mark died with pneumonia, following paralysis. Any reason for the deceased contracting the disease is unknown. The burial took place in Holy Cross cemetery Saturday afternoon about 4 o'clock.

The nervous condition of Mrs. John Dillon is very bad.

The Gupta farm was the scene of another pleasant gathering when the old school friends of Mrs. Elinor Eaton, who is spending the summer there, were invited for the afternoon. The number included Mrs. Martha Graves, Miss Mary Cressy, Miss Sarah Graves and Mrs. DeWitt Greene of this town. Besides these school friends, her daughter, Miss Martha Eaton, also here for the summer, was present, Mrs. Charles Taft of Montpelier and Mrs. Edward Jones of Waitsfield. A supper was served and thanks of all were due the mistress of the house, Mrs. Stephen Gupta. Mrs. Eaton is the sister of the late Walter Gupta and was born on that farm and has spent most of her summers there. She married Seymour Eaton in 1876 and they lived in Moretown until his death. Soon after his death she sold the Moretown farm and went to Brookline to live. Mrs. Eaton always receives a hearty welcome back to her home town.

Little Irene Kennedy entertained her young friends Friday afternoon at the home of her grandparents, Mr. and Mrs. F. C. Davis, at North Duxbury. Fifteen gathered to remind her of her third birthday. Games were played and refreshments served.

Miss Marion Rickert, who has been the guest for 10 days of Miss Annie Dorothy Palmer, has returned to her home in Barre.

## AMERICAN PLAN FAVORED.

Of Having Substantial Meal at Start of Day.

Bordeaux, France, July 16.—The American breakfast of ham and eggs, liver and bacon, beefsteak or other meat, vegetables and porridge, as a substitute for the meagre European morning meal, is recommended for France by Dr. Bergonie, professor of the Bordeaux Medical faculty. Dr. Bergonie regards this substitution as one of the reforms most likely to relieve the economic situation, by

providing rational nourishment and avoiding a great deal of waste.

He bases his argument on the fact that man requires sustenance most at the beginning of the day when he is about to make his effort, whereas in Europe he takes his principal meal when his day's work is half through, when he is half tired out and is incapable of so digesting his meal as to give him proper support for the balance of the day's work.

## GEESE GOOD GRAZERS.

Geese-Raising Is Not Affected by High-Priced Grains—Little Care Needed.

Geese can be raised in small flocks on general farms, on pasture or non-productive land, and do not require any material amount of grain. Low, rough pasture land, used for pasturing other stock and containing a natural supply of water offers the best conditions. Many geese are kept in the South to kill weeds, especially in the cotton fields, and their use could well be greatly increased for this purpose. They are good grazers and will do well on grass and forage crops alone, except during the winter months, when they may be fed largely on available roughage, such as clover, alfalfa hay, silage, cabbage, mangel-wurzels, or any waste vegetables. If the grass or forage is limited, it may be supplemented by light feeds of common or home-grown grains.

Geese do not need shelter except during cold winter weather, when open sheds may be provided. Goslings are not usually hatched until good pasture is available and need additional food only for a few weeks. The range of pasture used either for goslings or for geese should be large enough so that the grass will remain clean, or the stock should be moved frequently to fresh land. Coops, barrels, or some other dry shelter should be provided for the young goslings. Geese are very hardy and free from diseases and insect pests.

## The Farm Labor Problem.

Considerable time has been put in this week in locating farm help for haying and in locating places for men who want to help in the hay fields. Thirteen farm laborers, men and boys, have been so placed. The advertising done by the Montpelier committee of public safety along this line has resulted in the locating of several who wanted work and several farmers who wanted help. At present I think it is safe to say that farmers are pretty well supplied for the haying season. It will help materially in this work if the farmers wanting day help or help for a short time will notify me by telephone at once, especially those whose farms are near Barre or Montpelier, where they can be supplied from the number of men willing to go out from the granite works to help out at this time. There is, of course, still a call for men and boys who are willing to take up farm work for the full season and by the year. Good places with good pay can be found for all such applicants. At the office of Mr. Brigham, commissioner of agriculture, at St. Albans, a large number of applications have been received from men both with and without farm experience, who want places on farms. These applications have been placed with the county agents at present. There are in this office at present some 25 such applications which I will be glad to submit to any farmers who wish to correspond with the applicants.

Office Hours.

I wish to call your attention again to the office hours of the county agent. The field work, farm visits and demonstrations take up a great deal of the agent's time so that it is impossible for him to be in the office more than a part of the time. Wednesday forenoon and Saturday all day you will find the agent in the office. He is also usually in from 7:30 to 9 on other mornings. The telephone number is Montpelier 714-W, or call the house at Barre, 627-R.

F. H. Abbott,

County Agent.

WASTE NOT, WANT NOT.

Canning and Drying Is Recommended by Agriculture Department.

Those who heeded the advice of the United States department of agriculture to plant gardens this year are now wondering how best to preserve their surplus fruits and vegetables. The specialists of the department, who have tried out various methods for canning, preserving, drying, pickling, and making jam, have recently issued bulletins showing how this work may be done successfully. Anyone can have these publications for the asking, so ignorance of the proper

## A SAFE TEST

For those who are in need of a remedy for kidney troubles and backache, it is a good plan to try Doan's Kidney Pills. They are strongly recommended by Barre people.

C. H. Simonds, carpenter, 6 Beckley court, Barre, says:

"My kidneys caused me considerable annoyance by irregular action. The kidney secretions contained brickdustlike sediment and were highly colored. I had such sharp, shooting pains across my back that they interfered with my work. I used Doan's Kidney Pills, and the benefit they gave me has remained permanent."

procedure will not serve as a legitimate excuse for allowing any garden produce to spoil this year.

Farmers' bulletin 830 contains directions for canning by the one-period cold-pack method all kinds of fruits and vegetables, as well as fruit juices, soups, meats, camp rations and mushrooms.

When canning is not feasible or cans and jars are too expensive, drying offers a means of saving large quantities of surplus products which go to waste each year. Drying also affords a way of conserving portions of food too small for canning. Drying may be done in the sun, over the kitchen stove, or before an electric fan. Farmers' bulletin 841 tells just how to do this, using one of the driers now on the market or a home-made apparatus.

These bulletins are sent upon request to the division of publications, United States department of agriculture, Washington, D. C. Send for copies for yourself and tell your neighbors about them. Fruits and vegetables preserved in any of these ways will help you in planning your three meals a day next winter.

## How This Employer Sizes Up His Men.

An employer speaking to a fellow he is going to move up the line says, in the July American Magazine:

"My policy—the one I always stick to—the one which has made the Layne, Gracy company what it is to-day, is—notice the trifles. I always regard it when I'm picking my men. It is the trifles which show what a man's made of. There's an attitude to-day that I don't like, among young men, an attitude of aping their employers, even going them one better, in fact. Now, I have nothing to say about the private lives of you fellows in the outer office, in so far as it doesn't cast discredit on the firm; but when I pick men for the big business in my company I take that private life very much into consideration. Now, there's come a change over you, Mason, in the last six months, and it's a change I'm glad to see."

## A Word About Comfort

"SOCONY!"

What you get out of your car depends to a large extent upon what you put into it.

Just as a matter affecting your own comfort it pays to get only the best gasoline—SOCONY.

There is no gasoline more highly refined or more powerful than SOCONY. And it is the only gasoline which is always the same, wherever you buy it. That means a welcome freedom from faulty carburetion.

Look for the Red, White and Blue SOCONY Sign. It insures you more miles to the gallon and more power to the mile.
